Hebrew Conversion Chart

For an extra special touch, we can typeset your entire invitation, or just specific lines, in classic or contemporary Hebrew typestyles. Please read these instructions carefully. If you can translate from English to Hebrew (or have access to someone who can), you can use this Hebrew Lettering Order Form for a conversion using the steps below. Additional fees will apply. See pricing book for details.

1. First, you or your translator should translate from English into Hebrew, using Hebrew characters.
2. Then, using our English/Hebrew Conversion Chart locate the Hebrew characters in your translation. On the Hebrew Lettering Order Form, enter the English key stroke found above each Hebrew character.

IMPORTANT! This is NOT a translation chart. You cannot translate from English to Hebrew using this chart, you can only convert Hebrew characters to English key strokes. This chart is designed so that we may key in the correct Hebrew characters, even though the English looks like gibberish! Be sure to place the English key strokes from the Conversion Chart in the exact place you want the Hebrew characters to appear on your invitation. For example, if the right-most character in your Hebrew translation is 'aleph', be sure to put the English character 'A' in the box furthest to the right. Continue to enter the characters from right to left on each line as needed, until you have completed the conversion.

3. Select the Hebrew typestyle you want and enter it on the line labeled 'Typestyle' at the top of the Hebrew Lettering Order Form.
